## SKILLS

### LANGUAGES

- C
- C++
- Html
- Javascript

### FRAMEWORK

- TelwindCss
- ExpressJs

### OTHER

- DataStructure and Algorithm
- TelwindCss
- ReactJs

### FULL STACK DEVELOPER

#### Front End

- HTML
- CSS
- TelwindCss
- ReactJs

#### Back End

- ExpressJs
- NodeJs

#### Database Management

- MongoDB

#### Languages

- JavaScript

## PROJECTS

### STUDYNOTIONEDTECHAPP

#### LiveLink

<https://study-notion-project-mern.vercel.app/>

#### TechnologyUsed

Mongodb,NodeJs,ExpressJs,React

#### Fuctionality

Creating a fully-fledged EdTech website with fully authenticated login/signup, payment integration, video management (including add, delete, and edit functionalities), student and instructor dashboards is the goal etc"

### TODOAPP

#### LiveLink

<https://to-do-project-mern-ym3s.vercel.app/>

#### TechnologyUsed

Mongodb,NodeJs,ExpressJs,React

#### Fuctionality

Creating a fully-fledged Todo website with Authenticated login/signup Features, Task management (including add Task, delete Task,edit Task and Complete Task) and logout features etc"

### DEV-DETECTIVE

#### LiveLink

<https://rakesh3736gupta.github.io/Dev-Detective-Project/>

#### TechnologyUsed

Mongodb,NodeJs,ExpressJs,React

#### Fuctionality

Creating a Dev-Detective website with search Github id In Github Database"

### WEATHERAPP

#### LiveLink

<https://rakesh3736gupta.github.io/Weather-app/>

#### TechnologyUsed

Html,Css,Javascript,TelwindCss

#### Fuctionality

Location Access Feature: This feature allows the app to access your location.  
Current Location Weather: Get the current weather for your location. Find Any Country's Weather: Find the weather for any country.

## ACHIEVEMENTS

### CODING PROFILE

- 3\* coder on LeetCode -**Profile**
- 2\* coder on CodeChef -**Profile**

### CERTIFICATES

- MernStackDevelopment -**Certificate**
- C++ Language -**Certificate**
- DataStructure and Algorithm -**Certificate**
